Workcover & TAC accounts

Mr Tange does not see compensable patients. If you have been booked in error please notify his secretary prior to appointment.

Veterans Affairs No out of pocket for gold card holders

Costs of Surgery as at March 1st 2017

Private Patients

We have no out of pocket costs for surgery for those patients who we are treating for cancer. For non malignant tumours, degenerative spine diseases and other conditions there will be a co - payment depending on the level of private insurance that you have. The private hospital has its own charges separate from ours and they will depend on your level of cover. Please discuss this with the staff in the office.

Uninsured Patients

Mr Tange does not operate in the public system. We will prepare a quote from the hospital, the surgeon and the anaesthetist. This is an estimate and will depend on your hospital stay.

Workcover/TAC Patients

If there is change in your status to workcover/TAC there is a rate set by your insurance company . Mr Tange bills for workcover/TAC surgery at the AMA rate. There will be an out of pocket expense that is payable prior to surgery or an adjustment after the surgery if you have claimed under your private health insurance .

Medico Legal

Dr Tange does not see patients for medico - legal purposes. If any information is required for this purpose a letter will be prepared. The cost of this will depend on its' complexity. If this is for TAC or Workcover you will need to pay the balance of that fee payable by your insurance cover. We do not do disability assessments.

I state the problem for which I am consulting Melbourne Neurosurgery is not the result of a work related injury or motor vehicle accident. As such I understand that no history will be taken in relation to any such events. Neither I nor any one representing me will expect or request any reports or opinion relating to any work related injury or motor vehicle accident.
